Safety Issue**

The Ukiah Police Department School Resource Officer along with Ukiah Unified School District administration has investigated a school/community safety issue. UPD learned of an internet post concerning school shootings. Facts in the posting led to the Ukiah area. UPD and UUSD staff began investigating. Based on the investigation, the information posted is not credible.

As always, student safety is UUSD and UPD's highest priority, and we have safety procedures in place that we employ on a daily basis. Please remember to register in the school offices immediately upon visiting a school campus and alert the schools to any issues that make you uncomfortable or concerned. Please also talk with your children about alerting the school to issues that concern them.
