Smoke/CO Alarm Self Verification Form

Building Permit # _____ Application # _____

Dear Property Owner:

The California Residential Code (CRC) requires carbon monoxide alarms (CO Alarms) in dwellings as well as smoke alarms when building permits are issued and the scope of work exceeds a total cost or calculated valuation of \$1,000.00. In order to grant a final approval on your permit, it is necessary to verify the installation of these alarms within your dwelling. This form provides the ability to self-verify to the City of Ukiah Community Development Department when work done does not allow convenient access to the interior of the dwelling (e.g. Re-roof, PV Rooftop Solar, or other exterior only work).

As of January 1, 2014, all new and replacement battery operated smoke alarms must be equipped with a non-replaceable, non-removable battery capable of powering the alarm for 10 years. All existing smoke alarms shall be replaced after 10 years from the date of manufacture, or if the date of manufacture cannot be determined.

By signing this document, the property owner certifies to the City of Ukiah Community Development Department that both smoke alarms and CO alarms have been installed on the above referenced project as specified below:

Smoke alarms are installed in accordance with the approved manufacturer's instructions in all of the following areas:

1. Inside each sleeping room or room that can be used for sleeping.
2. In hallway areas giving access to sleeping rooms.
3. On each floor of multi-story dwellings.
4. In the basement, if a basement exists.

Carbon monoxide alarms are installed in accordance with the approved manufacturer's instructions in all of the following areas where fossil fuel burning appliances are installed, including fireplaces:

1. In hallway areas giving access to sleeping rooms.
2. On each floor of multi-story dwellings.
3. In the basement, if a basement exists.
