

City of Ukiah Amended Power Cost Surcharge Rider

This amends the City of Ukiah Power Cost Surcharge Rider as per Resolution No. 2023- The Power Cost Surcharge (Surcharge) is a per kilowatt-hour (kWh) charge that is used to ensure an adequate revenue stream to cover all power costs incurred by Ukiah Electric's system: including generation, management of Utility owned facilities, and transmission costs through Northern California Power Agency (NCPA). The Surcharge will be assessed to all customers as an additional charge per kWh to their standard rate.

Calculation:

A 12-month running sum of actual metered dollars invoiced and metered kWh of load for the previous 12 months of the NCPA Net All Resources Bill (ARB) will be maintained. The Surcharge Factor for a particular month will be calculated as the previous 12-month sum of actual metered NCPA net ARB invoiced amounts divided by the previous 12-month sum of the NCPA ARB metered kWh monthly loads adjusted for distribution losses and for bill timing adjustments. The Surcharge is set as the difference between Surcharge Factor of quarterly and the January 2022 Surcharge Factor. The Surcharge can be negative or positive.

The Surcharge is implemented quarterly on March 1st, June 1st, September 1st, and December 1st, with the first Power Cost Surcharge to begin on March 1, 2023.
