

City of Ukiah Electric Rates

Industrial Service with Demand Electric Rate I1

This schedule is applicable to large industrial production, lighting, heating and all single and three phase loads in which energy use is an average of 75,000 kWh monthly or greater with a demand of 200 kW monthly or greater for at least six consecutive months (multiple meters at a single location will be combined).

The Industrial rate is applicable to large manufacturing facilities, defined as businesses or corporations that produce products for either wholesale or retail sales or businesses that contract to fulfill obligations to produce specific components.

Demand Charge

The customer will be billed for demand according to the customer’s “maximum kilowatt demand” each month. The number of kilowatt (kW) used will be recorded over 15- m i n u t e intervals: the highest 15-minute average kW use in the month will be the customer’s maximum demand.
