PHASE I ENVIRONMENTAL SITE ASSESSMENT

1 CAROUSEL LANE

UKIAH, CALIFORNIA

APRIL 21, 2025

EBA Project No. 25-3730

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312 and we have the specific qualifications based on education, training, and experience to assess a property of the nature, history and setting of the Property. We have developed and performed the all-appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

1.0 INTRODUCTION

The following report presents the findings of a Phase I Environmental Site Assessment (ESA) performed by EBA Engineering (EBA) for the property located at 1 Carousel Lane in Ukiah, California. The property described above is further identified as Mendocino County Assessor's Parcel Number (APN) 167-280-15 hereinafter referred to as the subject property. The subject property is located as shown on the attached Figure 1, Location Map in Appendix A.

This ESA was completed for the City of Ukiah (Client and User) in conformance with American Society of Testing and Materials (ASTM) *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (ASTM E1527–21).

1.1 Purpose

The purpose of this environmental site investigation is to assess the possible contamination of the subject property with hazardous or toxic substances or wastes. A site may contain these substances or wastes as a result of current or past site activities, unauthorized dumping or disposal, or migration of contaminants from adjacent or nearby properties.

The Client should be aware that strict interpretation of California and federal legislation and case law may hold the landowner responsible for any toxic liability including future cleanup costs and, potentially, historical assessments and remediation work on the subject property. Such statement is not motivated by any condition of the subject property but is a general observation of the advisability that property owners and purchasers exercise all appropriate diligence and alertness to hazardous material risks.

This report is not intended to provide the necessary level of detail to be utilized for structural demolition/remodeling or soil or groundwater remediation. For such activities, appropriate regulations should be followed to ensure adequate coverage of material handling, worker and employee safety, airborne contamination during construction, and the precise extent of any contamination for contractor directions. This report conforms to American Society of Testing and Materials (ASTM) Standard E1527-21 for Phase I Environmental Site Assessments.

In defining a standard of good commercial and customary practice for conducting an environmental site assessment, the goal of the processes established by this practice is to identify recognized environmental conditions, historical recognized environmental conditions and controlled recognized environmental conditions. The term recognized environmental condition (REC) refers to the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. The term historical recognized environmental condition (HREC) refers to a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or

authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations). A historical recognized environmental condition is not a recognized environmental condition. The term controlled recognized environmental condition (CREC) refers to a past release of a hazardous substance or petroleum hydrocarbons that has occurred in connection to the property and has been addressed to the satisfaction of applicable regulatory agencies and allowed to remain in place subject to the implementation of required controls. The term includes hazardous substances or petroleum products even under conditions in compliance with laws. The term is not intended to include *de minimis* conditions that generally do not present a material risk of harm to public health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.

By performing a Phase I ESA of a parcel of real estate with respect to the range of contaminants within the scope of the CERCLA (42 U.S.C. §9601) and petroleum products, a user satisfies one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on CERCLA liability.

1.2 Scope of Services

The scope of services performed was in general accordance with the scope and limitations of ASTM's *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (ASTM E1527-21) and included records review, research of historical records, interviews with past and present owners and occupants, interviews with state and/or local government officials, a site reconnaissance, and an analysis of the Subject Property's physical setting.

To determine the condition of the subject property with respect to environmental liability, EBA performed the following tasks:

1) Reviewed past and current land use for indications of the manufacture, generation, use, storage, and/or disposal of hazardous substances;

2) Evaluated the potential for on-site soil and/or groundwater contamination resulting from past and present subject property land use activities and, to the extent possible, adjacent off-site operations;

3) Rendered findings and professional opinions regarding the potential for environmental contamination at the subject property; and

4) Recommend and perform further investigations (i.e., Phase II ESA), if deemed appropriate to evaluate whether contamination and/or environmental hazards exist at the locations identified.

1.3 Significant Assumptions

The following significant assumptions were made:

- All known and relevant information, knowledge, and experience have been provided by the User.

- Reasonably ascertainable records available from publicly available sources were used for the assessment of the subject property. We assume the records used in our research are reliable.

1.4 User Reliance

This Phase I ESA documents the results and conclusions regarding the potential for site impairment by hazardous substances generated, used, or stored on the subject property and within the immediate vicinity of the subject property. This report has been prepared solely for the Client and any such unauthorized reliance on or use of this report, including any of its information or conclusions, will be at the third party's risk. For the same reasons, no warranties, or representations, expressed or implied in this Report, are made to any such third party.

Please note pursuant to Section 4.6 of the *ASTM Standard E1527-21 for Phase I Environmental Site Assessments,* this report is valid for 180 days from the date noted herein.

1.5 Limitations & Exceptions

Local, State, and Federal environmental regulations and property conditions can vary significantly over time. Consequently, the conclusions and recommendations presented as a result of this environmental site assessment apply strictly to the environmental regulations and property conditions existing at the time EBA performed this study. EBA assumes that the data obtained, and the inferences made during this investigation are reasonable and representative of the property.

EBA makes no warranty, expressed or implied, except that our services have been performed in accordance with generally accepted existing environmental engineering, health and safety principles, and applicable regulations at the time and location of the study. EBA has analyzed the available information using currently applicable engineering techniques.

Please be advised that the recommendations presented herein are based solely on information made available to EBA by others, and includes professional interpretations based on limited research and data. Based on these circumstances, the decision to conduct additional investigative work to substantiate the findings and conclusions presented herein is the sole responsibility of the Client.

No Exceptions or Deviations occurred from the ASTM E1527-21 Standard.

2.0 SITE DESCRIPTION

2.1 Location and Legal Description

The subject property is located at 1 Carousel Lane in Ukiah, California, and is further described by Mendocino County APN 167-280-15. The subject property is located as shown on the attached Location Map, Figure 1 in Appendix A; general site features including subject property boundaries are as shown on Figures 2 and 3 in Appendix A. Site photographs depicting current subject property conditions, and land use in the vicinity are included in Appendix B.

A legal description of the subject property is provided in the Preliminary Title Report for the subject property that is included in Appendix C.

2.2 Current Use of Property

The subject property is developed with a commercial warehouse structure that totals approximately 98,000 square feet of commercial space. The structure is segregated into three areas, described herein as Suites “1A”, “1B”, and “1C”. Suites 1A and 1B are connected and currently occupied by West Coast Ag Products, and Suite 1C is separated from Suite 1B and occupied by a FedEx distribution center.

2.3 Current Uses of Adjoining Properties

The subject property is bordered to the north by York Creek and the Russian River, to the west by North State Street, and to the south and east by Carousel Lane and a cluster of commercial businesses.

2.4 Site and Vicinity General Characteristics

The subject property is located north of the incorporated limits of the City of Ukiah in an area developed with a mix of commercial and residential properties. The subject property consists of one approximately 7.9-acre developed commercial property. Access to the subject property is from Carousel Lane.

Site photographs depicting current property conditions, building configuration and land use in the site vicinity are presented in Appendix B.

2.5 Physical Setting

The subject property is located in the northern portion of Ukiah in an area developed with a mix of commercial and residential properties. Topography at the subject property and vicinity is relatively flat with an average surface elevation of 628 feet above mean sea level (msl). The subject property is bordered by York Creek and the Russian River to the north and east.

The following physical setting sources were utilized:

- FEMA Flood Insurance Rate Map
- USGS Quadrangle Map – Ukiah Quadrangle Map, California
- Geology of Northern California, California Division of Mines and Geology – Bulletin 190

- Geology and Groundwater in Russian River Valley Areas and in Round, Laytonville and Little Lake Valleys, Sonoma and Mendocino Counties, California, US Department of Interior, 1965
- Google Earth

An aerial Location Map for the subject property is included as Figure 3 in Appendix A.

2.5.1 Local Geology and Soils

The subject property is located within the Ukiah Valley, which is a northwest oriented basin with bordering foothills and mountains. Mountain ranges surround the valley and generally are steep and brush covered with elevations ranging from less than 1,000 feet to more than 3,000 feet above msl. The elevation of the valley floor ranges from approximately 665 feet above msl at Calpella in the north to approximately 540 feet above msl at El Roble, which is located at the south end of the valley. The basin is drained by the Russian River, which flows from the northwest to the southeast.

Geologic units in the Ukiah area include Pleistocene continental basin deposits, younger Pleistocene continental terrace deposits, and Holocene alluvium (Farrar, 1986). The Pleistocene continental basin deposits consist of a heterogeneous mixture of loosely cemented gravel, sand, silt, and clay. Bedding ranges from massive to thin. The lateral extent of individual beds is generally small for the coarse-grained material and larger for fine-grained materials. Beds of sand and gravel are typically lenticular and interfingered with beds above and below. The continental terrace deposits crop out discontinuously along both sides of the valley and consist of gravel and sand, with silt and clay filling the intergranular spaces. Except in topographic form, this unit is generally difficult to distinguish from the underlying continental basin deposits. The Holocene alluvial deposits consist of unconsolidated sand, gravel, silt, and clay units that were deposited along active stream channels and flood plains during the last 10,000 years. The alluvial deposits are present in all major valleys and many of the minor stream courses.

2.5.2 Hydrogeology

The subject property is located in the northern portion of the Ukiah Valley groundwater basin, located in southeastern Mendocino County. The Basin is approximately 22 miles long and five miles wide at the widest point and is part of the Ukiah and the Redwood Valleys to the north, and their tributary valleys. The low-lying regions of the Ukiah and Redwood Valleys as well as those sloping areas along the valley edges that include Quaternary- and Tertiary-age sediments define the extents of the north-south trending Basin. The basin is drained by the Russian River, which flows from the northwest to the southeast.

The primary groundwater-bearing units within the Ukiah Valley Groundwater Basin include recent alluvium, as well as alluvium of Pliocene and Pleistocene age. The terrace deposits and dissected alluvium of Pleistocene age are of lesser importance with regard to groundwater production. Underlying these deposits is reported to be moderately to highly fractured basement rock consisting of the Franciscan and Knoxville Formations, characterized as having limited permeability and low yield of water within the Basin.

Alluvium within the Basin has been characterized as consisting of unconsolidated gravel, sand, silt, and minor amounts of clay.

Based on investigations conducted at near site properties, first encountered groundwater in the area of the subject property is expected to be at depths ranging from approximately 10 to 20 feet below the ground surface (bgs) with an overall southeasterly groundwater flow direction generally following surface flow of the Russian River. Please note that groundwater flow directions are expected to be influenced by local topography and drainage courses and groundwater levels are expected to vary seasonally.

2.5.3 Flood Zone Map

A review of the applicable Flood Insurance Rate Map published by the Federal Emergency Management Agency (06045C1504F) indicates that a majority of the subject property is within an area designated as 0.2% Annual Chance Flood Hazard, Areas of 1% annual chance flood with average depth less than one foot or within drainage areas of less than one square mile (Zone X). In addition, the northern portion of the subject property bordering York Creek is indicated to be located within a Special Flood Hazard Area (SFHA). However, it should be noted that none of the structures located on the subject property are indicated to be located within the SFHA.

3.0 HISTORICAL INFORMATION

3.1 Historical Summary

The subject property appears to have been undeveloped open grasslands circa 1941 as evidenced by an aerial photograph from that year. The subject property is indicated to have been developed as a commercial property with construction of the initial phase of the site building by Carousel Carpet Mill in 1969 which operated at the site until 2010. The building subsequently underwent two expansions in 1981 and 1989 and has been occupied by several commercial tenants to the present day. Presently, the site building is occupied by West Coast Ag Products and a FedEx distribution center.

The use of the subject property is generally well documented without any significant data gaps.

3.2 Historical Aerial Photographs

Historical aerial photographs were obtained from EDR. Aerials photographs for the years 1941, 1952, 1963, 1976, 1983, 1993, 2006, 2009, 2012, 2016, and 2020. Aerial photographs can indicate changes in land use of a site over time. The following table presents our findings from a review of the available aerial photographs.

Historical Aerial Photographs – Carousel Lane Property

Photo Date	Photo Scale	Description
1941	1" = 500'	The 1941 photograph indicates the subject property as bare and undeveloped land. York Creek is visible to the north and east side of the subject property and the Russian River is visible farther to the east. The Northwest Pacific Railroad right-of-way is visible to the west of and adjacent to the subject property. North State Street is visible to the west of the railroad right-of-way. The surrounding area is visible primarily as rural residential and agricultural properties in all directions.
1952	1" = 500'	A small structure is visible at the subject property at this time that is located on the western portion of the property; no other obvious or significant changes from that shown in 1941 are indicated. The 1952 photograph indicates no obvious or significant changes to the surrounding lands from that shown in 1941.
1963	1" = 500'	The 1963 photograph indicates no obvious or significant changes to the subject property or surrounding lands from that shown in 1952.
1976	1" = 500'	By the time of the 1976 photograph the subject property is indicated to have been graded, the building previously visible is no longer indicated to be present, and the property has been developed with the initial phase of the current site building. Some development of surrounding lands is indicated with residential development visible to the northwest across North State Street.
1983	1" = 500'	The 1983 photograph shows the subject property as a fully developed commercial property with the first expansion to the site building visible. The adjacent properties to the south and east have been fully developed, and the surrounding area continues to show additional commercial and residential development located along the North State Street corridor.
1993	1" = 500'	By the time of the 1993 photograph the site building has again been expanded to its current footprint. The adjacent and surrounding area appears with additional commercial and residential development in all directions
2006	1" = 500'	The 2006 photograph indicates no obvious or significant changes to the subject property or properties in the site vicinity from the 1993 photograph.
2009	1" = 500'	The 2009 photograph indicates no obvious or significant changes to the subject property or properties in the site vicinity from the 2006 photograph.
2012	1" = 500'	The 2012 photograph indicates no obvious or significant changes to the subject property or properties in the site vicinity from the 2009 photograph.
2016	1" = 500'	The 2016 photograph indicates no obvious or significant changes to the subject property or properties in the site vicinity from the 2012 photograph.
2020	1" = 500'	The 2020 photograph indicates no obvious or significant changes to the subject property or properties in the site vicinity from the 2016 photograph.

Copies of the historical aerial photographs are included in the EDR Aerial Photo Decade Package dated April 9, 2025, in Appendix E.

3.3 Topographic Maps

EDR performed a search for historic United States Geological Survey (USGS) topographic quadrangle maps of the subject property and vicinity. The result of their investigation is documented in the EDR Historical Topographic Map Report dated April 8, 2025, included in Appendix F. The historical topographic maps included in the report are portions of the Ukiah 7.5-minute quadrangles dated from 1947, 1958, 1975, 2012, 2015, 2018 and 2022.

Topographic maps can indicate changes in land use of a site over time. The topographic maps generally corroborated information obtained from other historical sources, indicating that the subject property and vicinity were primarily in rural residential and agricultural use until approximately the 1970s when properties began to transition to commercial development, particularly along the North State Street corridor.

3.4 Sanborn Fire Insurance Maps

The results of EDR's search for historic Sanborn Fire Insurance Maps of the subject property and/or area are provided in the Certified Sanborn Map Report, dated April 8, 2025, indicated no coverage for the subject property. A copy of the Certified Sanborn Map Report is included in Appendix G.

3.5 City Directory

EDR performed a search of business directories including city, cross reference and telephone directories, if available, at approximately five-year intervals for the years spanning 1992 through 2020. The results of EDR's search that included the site and nearby area is provided in the City Directory Abstract, dated April 9, 2025. A copy of the Abstract is included in Appendix H. Listings for the subject property include various commercial businesses occupying the subject property between 1992 and 2020. The City Directory search generally corroborated information obtained from other historical sources.

3.6 Historical Use Information for Adjoining Properties

Historical use information for adjoining properties was obtained from historical aerial photographs, development records and other publicly available information.

4.0 REGULATORY RECORDS REVIEW

4.1 Standard Environmental Record Sources

EBA contacted EDR to conduct a comprehensive Federal, state, and local environmental records search for the subject property and properties within a one-mile radius of the subject property boundary. The purpose of the database search was to identify potential exposure to the subject property from various environmental concerns and/or hazardous materials releases. A comprehensive listing of federal, state, and local government environmental databases searched are presented in the report, which is provided in Appendix D. In some instances, to avoid an exhaustive discussion of the numerous sites identified by EDR, the facilities are discussed together, and conclusions consolidated. The lists of the databases accessed and reviewed includes but is not necessarily limited to those listed in the attached April 8, 2025, EDR Radius Report.

The Environmental Record Search (ERS) consists of a map showing the location of the identified sites relative to the subject property, a summary listing the identified sites by street names, and a final report describing the sources investigated and the resulting findings. It should be noted that the findings are those noted on the regulatory database(s) and that accuracy and completeness of record information varies among information sources, including government sources. The ERS findings are supplemented by interviews with owners/occupants/employees, and local government officials, as necessary. Agency records review and historical data review are also used to ascertain the potential environmental significance of sites reported in the ERS. Results of the record search are presented in Appendix D and discussed below.

4.1.1 The Subject Property

The subject property is identified in regulatory agency files and databases for the historical use, generation and disposal of hazardous materials and wastes in reportable quantities for several tenants that have occupied the property over several decades. The Mendocino County Environmental Health Department (MCEHD) is the primary regulatory agency responsible for the inspection and permitting of hazardous materials and wastes used as a Certified Unified Program Agency (CUPA) in conformance with laws and regulations administered by the California Environmental Protection Agency. It should be noted that the current tenants of the subject property are not required to be regulated by this agency due to no reported use, storage or disposal of hazardous materials or wastes. Regulatory agency databases for the subject property include the following:

- RCRA NonGen/NLR
- HWTS
- FINDS (Facility Index System/Facility Registry System)/ECHO
- HAZNET
- CERS
- RCRA-SQG
- CERS Haz Waste
- HMIRS
- FTTS / Hist FTTS

The information identifies a number of tenants including West Coast Ag Products, G3 Enterprises, FedEx Ground, and Carousel Carpet Mill in the searched databases and agency files for the use, generation and storage of hazardous materials and wastes. It should be noted that none of the current tenants at the subject property are reported to use hazardous materials or wastes in reportable quantities. Only FedEx is reported to occasionally temporarily store hazardous substances which are shipped to the property as part of the distribution operation. The tracking of hazardous materials and wastes use, storage and disposal is seen as a point of compliance and is not seen as a recognized environmental condition or indication of release. EBA's review of available information indicates several hazardous materials incidents at the subject property that are reported to have been associated with accidental releases from packaging at the FedEx facility as a result of improper handling and/or storage of packaging containing hazardous materials. However, the hazardous materials incidents are all indicated to have resulted in minor releases that were cleaned up by FedEx staff with no further action required. It is important to note that all of these releases are indicated to have occurred inside of the FedEx building.

There were no significant violations associated with this listing for the subject property which would indicate negative environmental conditions indicative of a REC. There is no indication that releases of any hazardous materials or wastes occurred at the subject property. Further, it is important to note that there is no indication of the current or historical use of underground fuel storage tanks or dump sites at the subject property.

4.1.2 Relevant Record Listings for Surrounding Properties

The EDR records search identified numerous offsite environmentally regulated facilities within the requested search radii of the subject site, many of which are leaking underground storage tank (LUST) and Cleanup Program Site (CPS) facilities. Of the EDR database listings, the LUST and CPS listings typically pose the greatest threat of an impact as these database listings are the result of an unauthorized release of hazardous chemicals to the environment.

The EDR records search also identified several properties within the requested ASTM search radii of the subject property as currently or having historically operated USTs. These databases include the SWEEPS UST (Statewide Environmental Evaluation and Planning System), HIST UST (Historical UST Registered Database), CERS Tanks (list of sites in the California Environmental Protection Agency Regulated Site Portal), and CA FID UST (this Facility Inventory Database contains active and inactive UST locations) listings. Most of these facilities are also listed on the LUST, CPS and/or DTSC cleanup databases.

The facilities which are closest to the subject property, and/or which warrant additional discussion are discussed in detail below.

Rebanda Trucking – 4000 North State Street, Ukiah

The Rebanda Trucking property is located approximately 400 feet northwest of the subject property. The site is identified in regulatory agency files and databases as a LUST site. Available information indicates that three USTs were removed from the site 1996. Soil samples collected at the time the tanks were removed indicated the presence of petroleum hydrocarbons consisting of diesel fuel and low concentrations of fuel related volatile organic compounds (VOCs) in soil.

Several phases of subsurface site investigations were subsequently performed at the property that included the installation of soil borings and groundwater monitoring wells for the purpose of collecting soil and groundwater samples for chemical analysis to define the extent of contaminants. The investigation indicated significant concentrations of diesel fuel were present in soil and groundwater in the immediate area of the former tanks.

Very little remedial efforts were reportedly performed at the site. A pilot test for biosparging of groundwater that entailed the injection of air to the areas of impact to enhance biodegradation of the contaminants was conducted, but it does not appear that extensive remedial efforts were conducted.

Groundwater monitoring was conducted over many years at the property that indicated generally low and decreasing concentrations of contaminants in groundwater. The site investigation was subsequently closed by the State Water Resources Control Board in accordance with the Low Threat Closure Policy for UST sites.

From the available information it appears that the release at the site was defined to be entirely located on the identified property and there is no indication of impacts to the subject property. It should also be noted that the site is located on the northern side of York Creek from the subject property which is seen as posing a hydraulic barrier to groundwater flow and contaminant transport. Based on this information the site is seen as posing no threat

to the subject property.

Ukiah Hot Plant – 4201 North State Street, Ukiah
The Ukiah Hot Plant property is located approximately 2,800 feet north of the subject property. The site is identified in regulatory agency files and databases as having completed an investigation related to soil and groundwater contamination. Available information indicates that the site was used as an asphalt batch plant with maintenance and operations for approximately 50 years. An environmental investigation of the property indicated that significant concentrations of diesel fuel in soil and groundwater at the property was present. Many phases of investigation were completed at the property that included the installation of soil borings and groundwater monitoring wells that were installed to define the extent of contamination at the property. Results of these investigations indicated a significant amount of contamination that was distributed in soil and groundwater throughout the site.

Remedial efforts at the property included the excavation of impacted soil as well as removal of free product petroleum hydrocarbons in groundwater.

Groundwater sampling over time indicated generally decreasing contaminant concentration trends and the site investigation was subsequently closed by the North Coast Regional Water Quality Control Board in May 2014. It should be noted that a deed restriction for land use was put in place for the property due to the presence of the remaining contaminants.

From the available information it appears that the release at the site was defined to be entirely located on the property and there is no indication of impacts to the subject property. It should be noted that the site is also located on the northern side of York Creek from the subject property which is seen as posing a hydraulic barrier to groundwater flow and contaminant transport. Based on this information the site is seen as posing no threat to the subject property.

Additional Sites
Additional properties in the surrounding area of the subject property are identified in regulatory agency files as having environmental issues. Many of these sites have completed investigations with regulatory oversight related to having investigations related to historic or leaking USTs or are identified as generators of hazardous materials and/or wastes. Based on topographic considerations, their distances from the subject property and/or status (i.e., closed), and/or the types of issues that caused them to be listed on the databases, additional database listings in the EDR report that were not identified and/or discussed above are not considered likely to have a significant potential to adversely impact the subject property.

4.1.3 Orphan Sites
An orphan site is a listing with an undefined location. Typically, orphan sites result from poor address and site location information. The EDR Radius Report did not identify any Orphan Sites within the requested search radius. The Orphan site list is included in the EDR Radius Map Report in Appendix D.

4.1.4 Vapor Encroachment Screening

EBA conducted an evaluation for vapor encroachment conditions (VECs) using methodology established in ASTM Standard of Practice E2600-10. The minimum distance criteria for the assessment of petroleum hydrocarbon releases pursuant to ASTM 2600-10 is one-tenth mile (528 feet) and one-third mile (1,720 feet) for volatile organic compounds (VOCs). The objective of the VEC screen was to evaluate the following:

- If a VEC exists, or
- Is likely to exist, or
- Cannot be ruled out, or
- Can be ruled out because it does not exist or is not likely to exist.

There are no documented releases of petroleum hydrocarbons or VOCs at the subject property. As discussed herein, there were documented releases and impacts to soil and groundwater at several properties located in the vicinity of the subject property from petroleum hydrocarbons and fuel related VOCs. As discussed, there has been a significant amount of investigation and remediation conducted at these properties. The characterization of the extent of contaminants in soil and groundwater indicates that the extent of the groundwater contaminant plumes was well defined and determined to be a sufficient distance from the subject property as to not represent a significant environmental concern. Based on a review of available information, a VEC at the subject property can be ruled out.

4.2 Additional Environmental Record Sources

To enhance and supplement the EDR Radius Report, searches for active sites, local records and/or additional state and tribal records were independently searched through their various websites. These records are reasonably ascertainable, and are sufficiently useful, accurate and complete in light of the objective of the records review. Some of the other Environmental Records Sources contacted for information pertaining to the subject property were as follows:

- U.S. EPA (http://www.epa.gov/region09).
- California Environmental Protection Agency, Department of Toxic Substances Control (http://www.calepa.gov/) and (http://www.envirostor.dtsc.ca.gov/public/).
- County of Mendocino – All Departments (https://www.mendocinocounty.org/).
- California State Water Resources Control Board (http://geotracker.swrcb.ca.gov/).

4.2.1 Mendocino County Environmental Health Department

The Unified Program is the consolidation of several state environmental programs into one program under the authority of a Certified Unified Program Agency (CUPA); these can be a County, City, or JPA (Joint Powers Authority). This program was established under the amendments to the California Health and Safety Code made by SB 1082 in 1994.

The programs generally consist of the Hazardous Materials Business Plan/Emergency Response Plan, Hazardous Waste, Tiered Permitting, Underground Storage Tanks, Aboveground Storage Tanks (SPCC only) and the Uniform Fire Code Hazardous Materials Management Plan.

A CUPA is a local agency that has been certified by CAL EPA to implement the state environmental programs with the local agency's jurisdiction. EBA submitted a records review request to the MCEHD, which is the CUPA agency responsible for the following programs:

- Hazardous Materials Business Plans (HMBP);
- Hazardous Waste Generator;
- Underground Storage Tanks;
- Accidental Release Prevention;
- Aboveground Petroleum Storage Tanks; and
- The Uniform Fire Code as related to hazardous materials.

Permitting and inspection records for business activities conducted after 2012 were reviewed at this agency. The documentation includes inspection records, hazardous materials inventory records and a minimal spoil plan for former tenant G3 Enterprises. It is our understanding that G3 Enterprises previously occupied the eastern portion of the building at the subject property that was used for printing labels for wine bottle and caps. No violations or indications of release are noted. It should be noted that the current tenants of the subject property are not required to be regulated by this agency due to no use, storage or disposal of hazardous materials or wastes.

Inspection records for FedEx and West Coast Ag Products indicated no hazardous materials or wastes were present at the subject property related to their operations.

4.2.2 Mendocino County Recorder's and Assessor's Offices

Property title records were reviewed at the Mendocino County Assessor's and Recorder's Office web site and the Preliminary Title Report included in Appendix C. No environmental liens or property use limitations were identified.

Available records were accessed at the following link:
Mendocino County Clerk-Recorder - Document Search

4.2.3 Mendocino County (All Other Departments)

Documentation was obtained from the County of Mendocino as part of a Public Record Act request. The County of Mendocino provided information associated with a permit for a wastewater disposal system dated March 1970 that included a 3,240-gallon tank and 400 feet of leach lines. In addition, information was provided associated with soil testing performed as part of an evaluation for an upgraded system in 1981 that was reportedly never installed.

Substantial information was included within these files associated with building permits, utility permits, interior and exterior alterations and property improvements, electrical and plumbing permits and upgrades, fire code building improvements, and other property use permits for construction, conversion of, and expansion of site buildings dating back to the late 1960s. No indications of significant violations or environmental concerns were

identified within the available documentation. Information reviewed within these files generally corroborated information obtained from other sources regarding building construction dates and uses at the subject property.

A Public Records Request was submitted to the following web address:
https://mendocinocounty.nextrequest.com/requests/25-517

4.2.4 North Coast Regional Water Quality Control Board

The North Coast Regional Water Quality Control Board (NCRWQCB) is the state-appointed regional agency responsible for overseeing environmental investigations and has jurisdiction of all matters related to water quality. No information was available for the subject property.

4.2.5 California State Water Resources Control Board GeoTracker Database

The GeoTracker web site is an online information repository for environmental cleanup sites that is administered and overseen by the State Water Resources Control Board. The GeoTracker site was consulted to determine if either the subject property or surrounding properties were identified in this environmental database as having environmental concerns. The subject property is not identified. Several regulated properties in the subject property vicinity are also listed on GeoTracker. For those properties which warranted additional review, EBA evaluated available information on GeoTracker and public agencies, the results of which are discussed above in Section 4.0.

Available records were accessed by the following link:
https://geotracker.waterboards.ca.gov/map/?CMD=runreport&myaddress=10+Carousel+lane+ukiah

4.2.6 California Department of Toxic Substances Control EnviroStor Database

The Envirostor web site was consulted to determine if either the subject property or surrounding properties were identified in this environmental database as having environmental concerns. The subject property was not identified.

The information was accessed by the following link:
EnviroStor Database

5.0 USER PROVIDED INFORMATION

The purpose of this section of the ESA Report is to identify tasks that will help identify the possibility of RECs in connection with the subject properties. In general, the tasks are:

1). Searches for Environmental Liens;
2). Valuation Reduction for Environmental Issues; and
3). Assessments of Specialized Knowledge.

User provided information is discussed in the following sections.

5.1 User Questionnaire

A User Questionnaire was completed by the Client. A copy of the questionnaire is included in Appendix I.

5.2 Results of Title Records Search for Environmental Liens or Activity and Use Limitations

Review of Title and Judicial Records for Environmental Liens or Activity and Use Limitations (AULs) is the responsibility of the user of the Phase I ESA Report. A review of Title information was performed using the Preliminary Title Report provided by the User and available public documents from the Mendocino County Recorder's Office. No environmental liens or Activity and Use Limitations were noted in the record information reviewed for this assessment. In addition, the User indicated no knowledge of any environmental cleanup liens filed or recorded against the subject property or site activity and no knowledge of AULs that are in place on the site or that have been filed or recorded in a registry.

5.3 Specialized Knowledge or Experience of the User

The User of this assessment indicated a general awareness of the historical use of the subject property but relies upon this assessment to understand environmental conditions at the subject property.

5.4 Actual Knowledge of User

The User of this assessment did not indicate any specialized knowledge regarding environmental conditions at the subject property.

5.5 Commonly Known or Reasonably Ascertainable Information

The User of this report indicated as having generally known and/or reasonably ascertainable information regarding the history and use of the subject property.

5.6 Reason for Significantly Lower Purchase Price

An assessment of the relationship of the purchase price to the fair market value of the subject property, assuming there is no contamination on the site, is required under 40 CFR Part 312, Section 312.29 to maintain innocent landowner defense. The sections from the federal document are summarized below:

1). Persons to whom this part is applicable must consider whether the purchase price of the subject property reasonably reflects the fair market value of the property, assuming there is no contamination on the property; and

2). Persons who conclude that the purchase price of the subject property does not reasonably reflect fair market value, if the property were not contaminated, should consider whether or not the differential in purchase price and fair market value is due to the presence of releases or threatened releases of hazardous substances.

No current appraisal reports were provided to EBA for review. The User is not aware of any recognized environmental conditions or other negative property conditions that would be expected to lower the value or significantly limit uses of the subject property.

5.7 Owner, Property Manager and Occupant Information

The subject property is currently owned by AE Carousel, LP and is occupied by two commercial tenants, West Coast Ag Products and FedEx.

5.8 Reason for Performing Assessment

It is our understanding that the User contracted this Phase I Environmental Site Assessment to provide an assessment of the environmental condition of the subject property prior to its purchase.

5.9 Previous Reports

EBA previously prepared a Phase I ESA dated May 20, 2016 for the subject property (EBA, 2016). The Phase I ESA did not identify any Recognized Environmental Conditions or negative property conditions that would indicate environmental concerns or limitations on the property use.

6.0 INTERVIEWS

ASTM E1527-21 requires the Environmental Professional to interview past owners, operators, and occupants likely to have material information about the Property, only if they have been identified, and the information likely to be obtained is not duplicative of information from other sources. In addition, if the property is demonstrably abandoned or deserted, or there is evidence of potential unauthorized uses of or uncontrolled access to the subject property the Environmental Professional is required to conduct interviews with neighboring owners or occupants. The previous owners have not been identified by the User, are not likely to have material information about the subject property, and the subject property is not abandoned. As such, interviews were not conducted with past owners, or neighboring owners or occupants. Although the inability to interview past owners and/or operators constitutes a data gap, based on information obtained from other sources EBA does not consider this data gap to be a significant limitation to this report.

During the site reconnaissance EBA was accompanied by Mr. Todd Schapmire, real estate agent representing the seller and prospective purchaser of the subject property. Mr. Schapmire provided substantial information associated with the current on-site tenant operations and general daily operations, development history of the subject property, building construction dates, square footage, and utilities provided to the property, including information regarding the wastewater treatment system and lift pumping structures. Information obtained from Mr. Schapmire has been incorporated into the appropriate sections of this report.

Mr. Miles Fisette of the City of Ukiah completed the User Questionnaire, a copy of which is included in Appendix I.

Since the subject property is not an active or historical site investigation site and the identified environmentally regulated sites in the area are well defined and documented, no regulatory agency interviews were conducted as part of this assessment.

7.0 SITE RECONNAISSANCE

7.1 Methodology and Limiting Conditions

EBA personnel conducted a site reconnaissance on April 10, 2025. The site reconnaissance entailed viewing the subject property and the surrounding areas. The site was inspected to observe the property and to identify discernible or potential environmental concerns. Information was obtained by interviews with knowledgeable individuals regarding the past and present uses of the subject property. No limitations were encountered at the time of the property inspection that prevented for a full characterization of the site conditions. Findings from the site reconnaissance activities are summarized in the following sections.

EBA also conducted a windshield survey of adjacent properties, and to the extent feasible, walked portions of these parcels during the site reconnaissance. No items of environmental concern were identified on the adjoining properties during the site assessment, including hazardous substances, petroleum products, aboveground storage tanks, USTs, evidence of releases, polychlorinated biphenyls (PCBs), strong or noxious odors, pools of liquids, sumps or clarifiers, pits or lagoons, stressed vegetation, or any other potential environmental hazards.

7.2 Current Use of the Property

The subject property is developed with a commercial warehouse structure that totals approximately 98,000 square feet of commercial space. The structure is segregated into three areas, described herein as suites “1A”, “1B”, and “1C”. Suites 1A and 1B are connected and currently occupied by West Coast Ag Products, and Suite 1C is separated from Suite 1B and occupied by a FedEx distribution center.

7.3 Description of Structures & Site Improvements

The project site contains a single commercial structure that is approximately 98,000 square feet in size and generally segregated into three units, herein described as Suites 1A, 1B, and 1C. The structure was reportedly built in three phases over several decades starting in 1969. The structure consists of a steel framed building with steel siding and roof and there is no wall separating Suites A and 1B. A concrete slab on grade floor extends throughout the structure. Most of the structure is open warehouse. The western portions of the structure (Suites 1A and 1B) are occupied by West Coast Ag Products that contains office areas, employee restrooms and kitchen facilities, with large areas of the warehouse in use for assorted personal storage. The remainder of these areas are used for bulk storage of pesticide products, and an organic pesticide bottling facility by West Coast Ag Products.

The eastern portion of the structure occupied by FedEx (Suite 1C) is used primarily as a distribution warehouse in which packaged goods are unloaded from the outside of the building from large trucks to the inside using a conveyor system. The packages are then loaded directly onto delivery vehicles for delivery. At the time of the property inspection there appeared to be very little storage of materials. A small fenced secure area is present within the southeastern portion of the structure occupied by FedEx that is reportedly reserved for the secure storage of hazardous materials; however, employees of Federal Express indicated they rarely handle hazardous materials and the area is rarely used.

Loading docks are present on the northern and eastern side of the existing building. The loading docks are sunken concrete structures that are integrated into the concrete foundation and building.

A wastewater collection and pump system is present on the northern side of the existing building that collects wastewater from the building and then conveys it to the sanitary sewer. A grease trap structure appears to be part of the wastewater collection system.

There is a fenced gravel parking area located on the eastern side of the building that is used by FedEx for the storage of vehicles and trucks. A small wooden structure is present on the northeast side of the fenced area that was reportedly used as a small outside office. At the time of the property inspection the structure was not in use.

Paved parking is present on the western and northern side of the subject property. Limited landscaping is present on the western side of the subject property.

It should be noted that northern side of the subject property includes York Creek which is a tributary to the Russian River.

7.4 Exterior Observations

Areas of the subject property not covered with the site buildings consist primarily of asphalt surfaces used for employee and customer parking and FedEx shipping and receiving trucks. A fenced gravel parking area is present on the eastern side of the subject property that is used for parking trucks by FedEx. Several loading docks are present on the northern and eastern side of the structure.

At the time of EBA's site reconnaissance, EBA did not observe any evidence of the use or storage of any hazardous materials, wastes or other harmful chemicals at any exterior areas of the subject property in such a way as to represent a threat of release to the environment. EBA paid particular attention to the exterior areas of the site building to see if there was any evidence of a historical UST using information obtained from aerial photographs and other sources cited above, but did not observe any obvious evidence of depressions, concrete/asphalt patches, stained soils, or ancillary structures such as vent or stand-pipes which would be indicative of an UST(s).

7.5 Interior Observations

The interior of the accessible buildings at subject property were inspected as part of this assessment. The interiors of the structures were observed to be generally clean and well maintained with no issues of environmental concern.

The eastern portion of the structure is currently occupied by FedEx. The area occupied by FedEx has a sorting conveyor system that runs through the interior portion of the building in which packages are brought into the structure for loading onto delivery vehicles within the structure. An office area is located along the southern wall of this area. A small enclosed secure area is present at the southeastern corner of the building that is designated for the storage of hazardous materials; however, employees at the facility indicated it is seldom used. EBA observed one package of hazardous materials at the time of the site

reconnaissance that was being stored on a pallet providing secondar containment. At the time of the property inspection the interior of the structure occupied by FedEx was clean and well maintained with no environmental issues.

The western portion of the site building is occupied by West Coast Ag Products that contains office areas, employee restrooms and kitchen facilities, with large areas of the warehouse in use for assorted personal storage. The remainder of these areas are used for bulk storage of organic pesticide products, and an organic pesticide bottling facility by West Coast Ag Products.

All of the site buildings have slab on grade concrete floors, and no excessive or significant staining was observed inside the site building. In general, the housekeeping practices appeared to be very good.

7.6 Hazardous Substances and Petroleum Products

Besides one package observed being stored in the fenced hazardous materials storage area within the FedEx facility, no hazardous materials or wastes observed at the subject property during the site reconnaissance.

7.7 Odors

No odors were noted at the subject property during the site reconnaissance.

7.8 Pools of Liquid

No pools of free liquid were observed at the subject property during the site reconnaissance.

7.9 Drums

No drums were observed at the subject property during the site reconnaissance.

7.10 Unidentified Substance Containers

No unidentified substance containers were identified at the subject property during the site reconnaissance.

7.11 Stains or Corrosion

No stains or corrosion was observed at the subject property during the site reconnaissance.

7.12 Drains and Sumps

Storm drains are present on the western side of the existing building.

A grease trap is present on the northern portion of the existing building in the area used by West Coast Ag Product's pesticide bottling operations. A series of tanks are also present in this area that collects wastewater and discharges to the sanitary sewer.

7.13 Pits, Ponds or Lagoons

No pits, ponds or lagoons were observed at the subject property during the site reconnaissance.

7.14 Stained Soil or Pavement
No stained soil or pavement was observed at the subject property during the site reconnaissance.

7.15 Solid Waste
Typical waste management-provided solid waste containers were observed at the subject property during the site reconnaissance.

7.16 Stressed Vegetation
No areas of stressed vegetation were observed at the subject property during the site reconnaissance.

7.17 Wells
No water supply wells were identified or reported to be present at the subject property.

7.18 Septic Systems
The County of Mendocino provided information associated with a permit for a septic system dated March 1970 that included a 3,240-gallon tank and 400 feet of leach lines for wastewater disposal. EBA understands that this system is now used to collect wastewater from the existing building that is then discharged to the sanitary sewer via a forced pressure main. It is assumed that there are portions of the abandoned septic system consisting of leach lines and distribution boxes that were abandoned in place when the subject property was connected to the sanitary sewer.

7.19 Underground Storage Tanks
There is no indication of the current or historical use of underground fuel storage tanks at the subject property.

7.20 Aboveground Storage Tanks
No aboveground fuel storage tanks were observed at the subject property during the site reconnaissance.

7.21 Dump Sites
No dump sites were observed at the subject property, nor was EBA provided any information regarding any current or historical dump sites at the subject property.

7.22 Utilities
EBA understands the subject property is connected to municipal sewage disposal and water service provided by the City of Ukiah and Millview Water District, respectively. Typical commercial utilities such as telephone, internet, cable and natural gas are provided to the subject property.

7.23 Non-Scope Observations

7.23.1 Asbestos
Asbestos is the name given to a number of naturally occurring, fibrous silicate minerals mined for their useful properties such as thermal insulation, chemical and thermal stability,

and high tensile strength. The Occupational Safety and Health Administration (OSHA) regulation 29 CFR 1926.1101 requires certain construction materials to be presumed to contain asbestos, for purposes of this regulation. All thermal system insulation (TSI), surfacing material, and asphalt/vinyl flooring that are present in a building constructed prior to 1981 and have not been appropriately tested are presumed asbestos containing material (PACM).

The site structures were reportedly constructed between 1969 and 1989. The property inspection included a limited, visual evaluation of accessible areas for the presence of suspect ACM at the subject property. The objective of this visual survey was to note the presence and condition of suspect ACM observed. The limited visual survey consisted of noting observable materials that are commonly known to potentially contain asbestos. This activity was not designed to discover all sources of suspect ACM, PACM, or asbestos at the site; or to comply with any regulations and/or laws relative to planned disturbance of building materials such as renovation or demolition, or any other regulatory purpose. Rather, it is intended to give the User an indication if significant potential sources of ACM or PACM are present at the subject property.

According to the U.S. Environmental Protection Agency, ACM and PACM that is intact and in good condition can, in general, be managed safely in-place under an Operations and Maintenance Program until removal is dictated by renovation, demolition, or deteriorating material condition. Prior to any disturbance of the structures at the subject property that would be reasonably expected to disturb ACM or PACM, a comprehensive ACM survey is recommended if such materials are suspected of being present. However, based on the metal construction of the site buildings it is unlikely that ACM or PACM is located within the building materials.

7.23.2 Lead Based Paint

Lead based paint (LBP) is defined as any paint, varnish, stain, or other applied coating that has 1 milligram per square centimeter (or 5,000 ug/g or 0.5% by weight) or more of lead. Structures built prior to 1978 and especially prior to the 1960's, should be expected to contain LBP. The United States Congress passed the Residential Lead-Based Paint Hazard Reduction Act of 1992, also known as Title X, to protect families from exposure to lead from paint, dust, and soil. Under Section 1017 of Title X, intact LBP on most walls and ceilings is not considered a hazard, although the condition of the paint should be monitored and maintained to ensure that it does not become deteriorated. Further, Section 1018 of this law directed the Housing and Urban Development and the U.S. Environmental Protection Agency to require the disclosure of known information on lead-based paint and hazards associated with lead-based paint before the sale or lease of most housing built before 1978.

No testing for lead-based paint was performed as part of this assessment. Given the reported ages of the structures at the subject property, there is a potential that lead-based paint is present. However, based on the metal construction of the site buildings it is unlikely that lead-based paint is present within the building materials.

7.23.3 Radon

The U.S. Environmental Protection Agency Radon Zone Classification for Mendocino County is 3, which is defined as having a low potential to have radon concentration less than 2 picocuries per liter (pCi/L). The U.S. EPA action level for radon is 4.0 pCi/L. Based on the radon concentration information, it is unlikely that radon abatement activities would be required at the subject property.

8.0 DEVIATIONS

8.1 Data Gaps

AAI Section 312.20(g) states that:

To the extent there are data gaps ... that affect the ability of persons conducting all appropriate inquiries to identify conditions indicative of releases or threatened releases in each area of inquiry under each standard and practice, such persons should identify such data gaps, identify the sources of information consulted to address such data gaps, and comment upon the significance of such data gaps with regard to the ability to identify conditions indicative of releases or threatened releases of hazardous substances, pollutants, contaminants, petroleum and petroleum products, and controlled substances.

Data gaps in our historical research, which range between 1941 and 2025, were encountered. Data failure occurs when a significant (10 years or more) gap of time exists between two historic sources and a reasonable effort has been made to obtain additional sources of information. Although data failure with respect to historical research, as defined in the ASTM standard, has occurred, it does not diminish EBA's ability to provide an opinion on a release or potential release of hazardous substances at the subject property. In addition, the previous owners and/or operators of the subject property have not been identified by the User and were not interviewed. Although the inability to interview past owners and/or operators constitutes a data gap, based on information obtained from other sources EBA does not consider this data gap to be a significant limitation to this report. These data gaps are not considered significant and do not affect the ability of EBA's environmental professional to identify whether a given issue is a REC.

8.2 Exceptions or Deletions

There were no exceptions to, or deletions from, ASTM Practice E1527-21.

9.0 ADDITIONAL SERVICES

9.1 Non-Scope Considerations

The following environmental issues are outside the scope (non-scope considerations) of the standard practice defined by ASTM Standard Practice E1527-21:

- Regulatory Compliance;
- Cultural and Historic Resources;
- Industrial Hygiene;
- Health and Safety;

- Ecological Resources;
- Endangered Species;
- Indoor Air Quality;
- Biological Agents; and
- Mold
- PFAS Assessment

EBA identified no ASTM non-scope considerations/RECs in connection with the subject property that represent potential business environmental risks but are outside the standard scope of services prescribed by ASTM Standard Practice E1527-21.

9.2 Additional Services

No additional services beyond the standard scope of services prescribed by ASTM Standard Practice E1527-21 were requested by the Client.

10.0 FINDINGS

Location and Legal Description

The subject property is located at 1 Carousel Lane in Ukiah, California, and is further described by Mendocino County APN 167-280-15. The subject property is located as shown on the attached Location Map, Figure 1 in Appendix A; general site features including subject property boundaries are as shown on Figures 2 and 3 in Appendix A. Site photographs depicting current subject property conditions, and land use in the vicinity are included in Appendix B.

A legal description of the subject property is provided in the Preliminary Title Report for the subject property that is included in Appendix C.

The subject property is developed with a commercial warehouse structure that totals approximately 98,000 square feet of commercial space. The structure is segregated into three areas, described herein as Suites “1A”, “1B”, and “1C”. Suites 1A and 1B are connected and currently occupied by West Coast Ag Products, and Suite 1C is separated from Suite 1B and occupied by a FedEx distribution center.

Subject Property History

The subject property appears to have been undeveloped open grasslands circa 1941 as evidenced by an aerial photograph from that year. The subject property is indicated to have been developed as a commercial property with construction of the initial phase of the site building by Carousel Carpet Mill in 1969 which operated at the site until 2010. The building subsequently underwent two expansions in 1981 and 1989 and has been occupied by several commercial tenants to the present day. Presently, the site building is occupied by West Coast Ag Products and a FedEx distribution center.

The use of the subject property is generally well documented without any significant data gaps.

Subject Property Regulatory Records Review
The subject property is identified in regulatory agency files and databases for the historical use, generation and disposal of hazardous materials and wastes in reportable quantities several tenants that have occupied the property over several decades. The MCEHD is the primary regulatory agency responsible for the inspection and permitting of hazardous materials and wastes used as a CUPA in conformance with laws and regulations administered by the California Environmental Protection Agency. It should be noted that the current tenants of the subject property are not required to be regulated by this agency due to no reported use, storage or disposal of hazardous materials or wastes

The information identifies a number of tenants including West Coast Ag Products, G3 Enterprises, FedEx Ground, and Carousel Carpet Mill in the searched databases and agency files for the use, generation and storage of hazardous materials and wastes. It should be noted that none of the current tenants at the subject property use hazardous materials or wastes in reportable quantities. Only FedEx is reported to occasionally temporarily store hazardous substances which are shipped to the property as part of the distribution operation. The tracking of hazardous materials and wastes use, storage and disposal is seen as a point of compliance and is not seen as a recognized environmental condition or indication of release. EBA's review of available information indicates several hazardous materials incidents at the subject property that are reported to have been associated with accidental releases from packaging at the FedEx facility as a result of improper handling and/or storage of packaging containing hazardous materials. However, the hazardous materials incidents are all indicated to have resulted in minor releases that were cleaned up by FedEx staff with no further action required. It is important to note that all of these releases are indicated to have occurred inside of the FedEx building.

There were no significant violations associated with this listing for the subject property which would indicate negative environmental conditions indicative of a REC. There is no indication that releases of any hazardous materials or wastes occurred at the subject property. Further, it is important to note that there is no indication of the current or historical use of underground fuel storage tanks or dump sites at the subject property.

Based on a review of the provided information, there is no indication that releases of any hazardous materials or wastes occurred at the subject property associated with these regulatory listings.

Surrounding Properties Regulatory Records Review
Based on a review of available regulatory information, due to their distances and groundwater flow-directions relative to the subject property, the nature of their reported release and/or information obtained from a review of available regulatory files, there are no documented offsite facilities within EDR's specified search radii which appear to represent a threat of adverse environmental impact to the subject property.

Vapor Encroachment Concerns
There are no documented releases of petroleum hydrocarbons or VOCs at the subject property. As discussed herein, there were documented releases and impacts to soil and groundwater at several properties located in the vicinity of the subject property from petroleum hydrocarbons and fuel related VOCs. As discussed, there has been a significant

amount of investigation and remediation conducted at these properties. The characterization of the extent of contaminants in soil and groundwater indicates that the extent of the groundwater contaminant plumes was well defined and determined to be a sufficient distance from the subject property as to not represent a significant environmental concern. Based on a review of available information, a VEC at the subject property can be ruled out.

Recognized Environmental Conditions

Recognized Environmental Conditions (RECs) are defined by ASTM Standard Practice E1527-21 as the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to a release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. In the course of performing this ESA, EBA did not identify any RECs associated with the subject property or any of the adjoining parcels.

11.0 CONCLUSIONS AND OPINION

EBA Engineering has performed this Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-21 of the property located at 1 Carousel Lane in Ukiah, California, and further described by Mendocino County APN 167-280-15. Any exceptions to, or deletions from, this practice are described herein. This assessment has revealed no evidence of Recognized Environmental Conditions in connection with the subject property.

EBA has no recommendations for additional environmental review or assessment of the subject property.

Buyer:	Altus Equity Group, LP
Property:	1 Carousel Lane Ukiah, CA 95482

PRELIMINARY REPORT

In response to the above referenced application for a policy of title insurance, this company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said Policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Exhibit A attached. *The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties.* Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Dated as of August 30, 2016 at 7:30 A.M.

The form of Policy of title insurance contemplated by this report is:

To Be Determined

A specific request should be made if another form or additional coverage is desired.

Title to said estate or interest at the date hereof is vested in:

CAROUSEL CARPET MILLS, INC. A CORPORATION

The estate or interest in the land hereinafter described or referred to covered by this Report is:

A FEE AS TO PARCEL ONE; AN EASEMENT AS TO PARCEL TWO

The Land referred to herein is described as follows:

(See attached Legal Description)

At the date hereof exceptions to coverage in addition to the printed Exceptions and Exclusions in said policy form would be as follows:

1. General and special taxes and assessments for the fiscal year 2016-2017, a lien not yet due or payable.

2. All taxes - secured, supplemental, defaulted, escaped and including bonds and assessments are not available at this time. Please verify any/all tax amounts and assessment information with the County Tax Collector prior to the close of the contemplated transaction.

3. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code.

4. The effect of a map purporting to show the land and other property, filed Map Case 2, Drawer 16, Page 61 of Record of Surveys.

5. An easement for ingress and egress and incidental purposes, recorded March 02, 1970 as Book 811, Page 521 of Official Records.
   In Favor of: Ernest H. Vamos and Grace B. Vamos, husband and wife
   Affects: As described therein

6. An easement for communication facilities, access and incidental purposes, recorded July 19, 1977 as Book 1099, Page 190 of Official Records.
   In Favor of: Pacific Telephone and Telegraph Company, a California corporation
   Affects: As described therein

The location of the easement cannot be determined from record information.

7. A deed of trust to secure an original indebtedness of $964,984.78 recorded September 16, 2011 as INSTRUMENT NO. 2011-13404 OF OFFICIAL RECORDS.

Dated:	August 31, 2011
Trustor:	Carousel Carpet Mills Inc., a corporation
Trustee:	Prime Pacific, a California corporation
Beneficiary:	Savings Bank of Mendocino County

The terms and provisions contained in the document entitled "Subordination, Nondisturbance and Attornment Agreement" recorded September 16, 2011 as Instrument No. 2011-13406 OF OFFICIAL RECORDS.

8. An unrecorded lease dated August 31, 2011, executed by Carousel Carpet Mills, Inc. as lessor and Pamela's Products, Inc. as lessee, as disclosed by a Memorandum of Lease recorded September 16, 2011 as Instrument No. 2011-13405 of Official Records.

Defects, liens, encumbrances or other matters affecting the leasehold estate, whether or not shown by the public records.

9. Any easements and/or servitudes affecting easement parcel(s) Two herein described.

10. Any claim that any portion of the land is below the ordinary high water mark where it was located prior to any artificial or avulsive changes in the location of the shoreline or riverbank.

11. Any rights, interests, or easements in favor of the public, which exist or are claimed to exist over any portion of said land covered by water, including a public right of access to the water.

12. Any claim that any portion of the land is or was formerly tidelands or submerged lands.

13. Rights of parties in possession.

Prior to the issuance of any policy of title insurance, the Company will require:

14. With respect to Carousel Carpet Mills, Inc., a corporation:
a. A certificate of good standing of recent date issued by the Secretary of State of the corporation's state of domicile.
b. A certified copy of a resolution of the Board of Directors authorizing the contemplated transaction and designating which corporate officers shall have the power to execute on behalf of the corporation.
c. Other requirements which the Company may impose following its review of the material required herein and other information which the Company may require.

INFORMATIONAL NOTES

Note: The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than the certain dollar amount set forth in any applicable arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. If you desire to review the terms of the policy, including any arbitration clause that may be included, contact the office that issued this Commitment or Report to obtain a sample of the policy jacket for the policy that is to be issued in connection with your transaction.

1. According to the latest available equalized assessment roll in the office of the county tax assessor, there is located on the land a(n) Commercial Structure known as 1 Carousel Lane, Ukiah, California.

2. According to the public records, there has been no conveyance of the land within a period of twenty-four months prior to the date of this report, except as follows:

   None

The map attached, if any, may or may not be a survey of the land depicted hereon. First American expressly disclaims any liability for loss or damage which may result from reliance on this map except to the extent coverage for such loss or damage is expressly provided by the terms and provisions of the title insurance policy, if any, to which this map is attached.

NOTICE

Section 12413.1 of the California Insurance Code, effective January 1, 1990, requires that any title insurance company, underwritten title company, or controlled escrow company handling funds in an escrow or sub-escrow capacity, wait a specified number of days after depositing funds, before recording any documents in connection with the transaction or disbursing funds. This statute allows for funds deposited by wire transfer to be disbursed the same day as deposit. In the case of cashier's checks or certified checks, funds may be disbursed the next day after deposit. In order to avoid unnecessary delays of three to seven days, or more, please use wire transfer, cashier's checks, or certified checks whenever possible.

Our bank wire instructions seldom change.

EXHIBIT A
LIST OF PRINTED EXCEPTIONS AND EXCLUSIONS (BY POLICY TYPE)

CLTA STANDARD COVERAGE POLICY – 1990

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.

3. Defects, liens, encumbrances, adverse claims or other matters:

   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;

   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;

   (c) resulting in no loss or damage to the insured claimant;

   (d) attaching or created subsequent to Date of Policy; or

   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.

4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.

5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.

6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public, records.

2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.

3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.

4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.

6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.

   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:
For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.
The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1% of Policy Amount Shown in Schedule A or $2,500 (whichever is less)	$10,000
Covered Risk 18:	1% of Policy Amount Shown in Schedule A or $5,000 (whichever is less)	$25,000
Covered Risk 19:	1% of Policy Amount Shown in Schedule A or $5,000 (whichever is less)	$25,000
Covered Risk 21:	1% of Policy Amount Shown in Schedule A or $2,500 (whichever is less)	$5,000

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;

(ii) the character, dimensions, or location of any improvement erected on the Land;

(iii) the subdivision of land; or

(iv) environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

(b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.

2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters

(a) created, suffered, assumed, or agreed to by the Insured Claimant;

(b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;

(c) resulting in no loss or damage to the Insured Claimant;

(d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or

(e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.

4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is

(a) a fraudulent conveyance or fraudulent transfer, or

(b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.

7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

[Except as provided in Schedule B - Part II,[t[or T]his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

[PART I

[The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.]

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:]

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to

(i) the occupancy, use, or enjoyment of the Land;

(ii) the character, dimensions, or location of any improvement erected on the Land;

(iii) the subdivision of land; or

(iv) environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

(b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.

2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters

(a) created, suffered, assumed, or agreed to by the Insured Claimant;

(b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;

(c) resulting in no loss or damage to the Insured Claimant;

(d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 or 10); or

(e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.

4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is

(a) a fraudulent conveyance or fraudulent transfer, or

(b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.

5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

[The above policy form may be issued to afford ither Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.
7. [Variable exceptions such as taxes, easements, CC&R's, etc. shown here.]

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (12-02-13)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to

(i) the occupancy, use, or enjoyment of the Land;

(ii) the character, dimensions, or location of any improvement erected on the Land;

(iii) the subdivision of land; or

(iv) environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.

(b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.

2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters

   (a) created, suffered, assumed, or agreed to by the Insured Claimant;

   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;

   (c) resulting in no loss or damage to the Insured Claimant;

   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or

   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is

   (a) a fraudulent conveyance or fraudulent transfer, or

   (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

First American Title

Privacy Information
We Are Committed to Safeguarding Customer Information
In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information - particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information you provide to us. Therefore, together with our subsidiaries we have adopted this Privacy Policy to govern the use and handling of your personal information.

Applicability
This Privacy Policy governs our use of the information that you provide to us. It does not govern the manner in which we may use information we have obtained from any other source, such as information obtained from a public record or from another person or entity. First American has also adopted broader guidelines that govern our use of personal information regardless of its source. First American calls these guidelines its Fair Information Values.

Types of Information
Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:

- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means;
- Information about your transactions with us, our affiliated companies, or others; and
- Information we receive from a consumer reporting agency.

Use of Information
We request information from you for our own legitimate business purposes and not for the benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested of us; or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal purpose, such as quality control efforts or customer analysis. We may also provide all of the types of nonpublic personal information listed above to one or more of our affiliated companies. Such affiliated companies include financial service providers, such as title insurers, property and casualty insurers, and trust and investment advisory companies, or companies involved in real estate services, such as appraisal companies, home warranty companies and escrow companies. Furthermore, we may also provide all the information we collect, as described above, to companies that perform marketing services on our behalf, on behalf of our affiliated companies or to other financial institutions with whom we or our affiliated companies have joint marketing agreements.

Former Customers
Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

Confidentiality and Security
We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy and First American's Fair Information Values. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

Information Obtained Through Our Web Site
First American Financial Corporation is sensitive to privacy issues on the Internet. We believe it is important you know how we treat the information about you we receive on the Internet.
In general, you can visit First American or its affiliates' Web sites on the World Wide Web without telling us who you are or revealing any information about yourself. Our Web servers collect the domain names, not the e-mail addresses, of visitors. This information is aggregated to measure the number of visits, average time spent on the site, pages viewed and similar information. First American uses this information to measure the use of our site and to develop ideas to improve the content of our site.
There are times, however, when we may need information from you, such as your name and email address. When information is needed, we will use our best efforts to let you know at the time of collection how we will use the personal information. Usually, the personal information we collect is used only by us to respond to your inquiry, process an order or allow you to access specific account/profile information. If you choose to share any personal information with us, we will only use it in accordance with the policies outlined above.

Business Relationships
First American Financial Corporation's site and its affiliates' sites may contain links to other Web sites. While we try to link only to sites that share our high standards and respect for privacy, we are not responsible for the content or the privacy practices employed by other sites.

Cookies
Some of First American's Web sites may make use of "cookie" technology to measure site activity and to customize information to your personal tastes. A cookie is an element of data that a Web site can send to your browser, which may then store the cookie on your hard drive.
FirstAm.com uses stored cookies. The goal of this technology is to better serve you when visiting our site, save you time when you are here and to provide you with a more meaningful and productive Web site experience.

Fair Information Values
Fairness We consider consumer expectations about their privacy in all our businesses. We only offer products and services that assure a favorable balance between consumer benefits and consumer privacy.
Public Record We believe that an open public record creates significant value for society, enhances consumer choice and creates consumer opportunity. We actively support an open public record and emphasize its importance and contribution to our economy.
Use We believe we should behave responsibly when we use information about a consumer in our business. We will obey the laws governing the collection, use and dissemination of data.
Accuracy We will take reasonable steps to help assure the accuracy of the data we collect, use and disseminate. Where possible, we will take reasonable steps to correct inaccurate information. When, as with the public record, we cannot correct inaccurate information, we will take all reasonable steps to assist consumers in identifying the source of the erroneous data so that the consumer can secure the required corrections.
Education We endeavor to educate the users of our products and services, our employees and others in our industry about the importance of consumer privacy. We will instruct our employees on our fair information values and on the responsible collection and use of data. We will encourage others in our industry to collect and use information in a responsible manner.
Security We will maintain appropriate facilities and systems to protect against unauthorized access to and corruption of the data we maintain.

OWNER'S CERTIFICATE

The undersigned, being all parties having any record title interest in the land within this division hereby consent to the preparation and recordation of this map and offer for dedication and do hereby dedicate the following:

(a.) All roadway easements other than county maintained roads.

(b.) Rights-of-way and easements for water, gas, sewer, and drainage pipes; and for poles and overhead and underground wires and conduits for electric, telephone and television services; together with any and all appurtenances appertaining thereto, on, over and across those strips of land designated public utility easements.

(c.) Easements for drainage purposes on, over, across, under and through all natural drainage courses and on over and across those strips of land designated drainage easements.

Jensens Truck Stop, Inc.

Robert L. Jensen, President

Gail E. Jensen

Gail E Jensen, Secretary-Treasurer

ACKNOWLEDGEMENT

STATE OF CALIFORNIA
COUNTY OF MENDOCINO ss

On this 17th day of November, 1976, before me Garrett R. Goodmans a notary public in and for said County and State, residing therein, duly commissioned and sworn personally appeared Robert L. Jansen and Gail E. Jensen known to me to be the President and Secretary-Treasurer of Jensens Truck Stop, Inc., a California corporation, the corporation that executed the within instrument and acknowledged to me that said corporation executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal the day and year first above written.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

EXECUTIVE SUMMARY

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 02/17/2025 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
ALL DIESEL SVC EPA ID:: CAR000083154	4000 N STATE ST	NW 0 - 1/8 (0.071 mi.)	B36	160

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 02/17/2025 has revealed that there is 1 RCRA-VSQG site within approximately 0.25 miles of the target property.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 01/21/2025 has revealed that there are 3 ENVIROSTOR sites within approximately 1 mile of the target property.

Lists of state and tribal landfills and solid waste disposal facilities

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

A review of the SWF/LF list, as provided by EDR, has revealed that there are 4 SWF/LF sites within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 02/17/2025 has revealed that there are 14 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

PFAS ECHO: Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

A review of the PFAS ECHO list, as provided by EDR, and dated 12/30/2024 has revealed that there is 1 PFAS ECHO site within approximately 0.25 miles of the target property.

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there are 6 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

Environmental Interest/Information System:
The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System

WEST COAST AG PRODUCTS, LLC (Continued) **1024393415**

(PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

Registry ID: 110070305840

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Department of Labor, Occupational Safety and Health Administration information system consists of inspection case detail for approximately 100,000 OSHA inspections conducted annually. The FRS dataset includes facilities that had inspections within the last 7 years within the mining, oil and gas, utilities, and manufacturing sectors.

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	Ignitable Waste
Waste Code:	F003
Waste Description:	The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent

G3 ENTERPRISES FLEXIBLE PRINTING (Continued) **1011843812**

Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	Ignitable Waste
Waste Code:	D002
Waste Description:	Corrosive Waste
Waste Code:	D003
Waste Description:	Reactive Waste

FEDERAL EXPRESS - ZUKI (Continued) **1016148141**

Waste Code:	D005
Waste Description:	Barium
Waste Code:	D006
Waste Description:	Cadmium
Waste Code:	D007
Waste Description:	Chromium
Waste Code:	D035
Waste Description:	Methyl Ethyl Ketone
Waste Code:	D039
Waste Description:	Tetrachloroethylene
Waste Code:	F003
Waste Description:	The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	F005
Waste Description:	The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	U002
Waste Description:	2-Propanone (I) (Or) Acetone (I)
Waste Code:	U117
Waste Description:	Ethane, 1,1'-Oxybis-(I) (Or) Ethyl Ether (I)
Waste Code:	U122
Waste Description:	Formaldehyde
Waste Code:	U159
Waste Description:	2-Butanone (I,T) (Or) Methyl Ethyl Ketone (Mek) (I,T)
Waste Code:	U210
Waste Description:	Ethene, Tetrachloro- (Or) Tetrachloroethylene
Waste Code:	U220
Waste Description:	Benzene, Methyl- (Or) Toluene
Waste Code:	U239
Waste Description:	Benzene, Dimethyl- (I,T) (Or) Xylene (I)

Environmental Interest/Information System:

The National Compliance Database (NCDB) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA).
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters,

G3 ENTERPRISES FLEXIBLE PRINTING (Continued) **1011917653**

storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Claim Number: 6380, 10087
Claim Status: Ineligible, Active
Site History: In 1987, two gasoline underground storage tanks were pulled at this site; soil contamination was noted. Soil and groundwater investigation was performed in the following years. Remediation efforts in 2000 and 2003 included the injection of oxygen-releasing compound and excavation and aeration of contaminated soil. At the time of case closure, some soil and groundwater contamination remained, but appeared to be attenuating with time.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

Site History:	An unauthorized disposal of waste from sediment traps at Pete's Power Wash was documented at the site in November 2008. About 10 yards of waste was placed on the unpaved surface at the southwest corner of the property. Consitutents of concern from this waste were diesel, some petroleum volatiles and arsenic. A subsurface investigation indicates the impacted areas is limited to the unpaved area.

LOUISIANA-PACIFIC UKIAH OPERAT (Continued) **1000262969**

SIC Code:	2491
SIC Code 2:	Not reported
Primary Waste Type:	Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.
Primary Waste:	STORMS
Waste Type2:	Not reported
Waste2:	Stormwater Runoff
Primary Waste Type:	Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.
Secondary Waste:	Not reported
Secondary Waste Type:	Not reported
Design Flow:	0
Baseline Flow:	0
Reclamation:	No reclamation requirements associated with this facility.
POTW:	The facility is not a POTW.
Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 12/19/2024
Date Data Arrived at EDR: 01/02/2025

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 12/19/2024

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/20/2024

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 05/20/2024

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing

Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

UST FINDER RELEASE: UST Finder Releases Database
US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

UST FINDER: UST Finder Database
EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

CHROME PLATING: Chrome Plating Facilities Listing

This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.

Data Release Frequency: Varies

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Elevation:	628 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	50006397 UKIAH, CA
Version Date:	2022

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

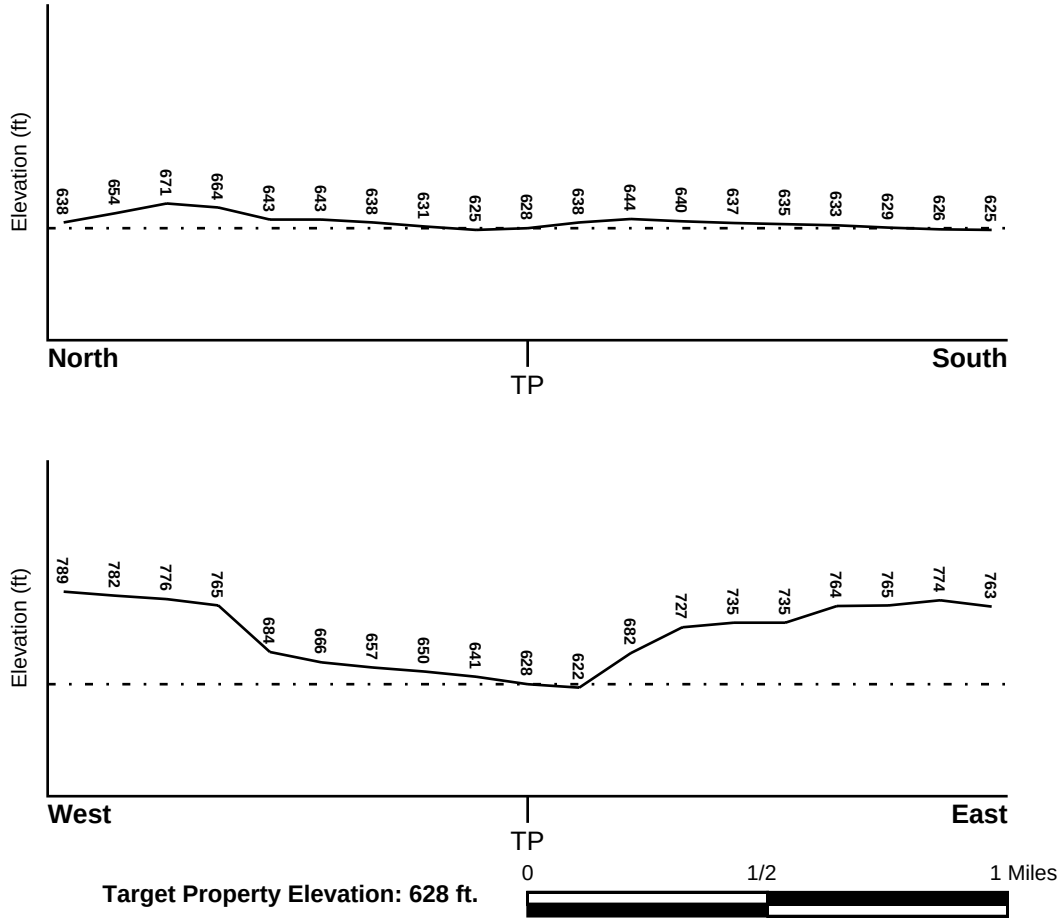
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General WNW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06045C1504F	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
06045C1503F	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
NOT AVAILABLE	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: COLE

Soil Surface Texture:
Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Somewhat poorly drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	14 inches		Not reported	Not reported	Max: 1.4 Min: 0.42	Max: 8.4 Min: 6.6
2	14 inches	59 inches		Not reported	Not reported	Max: 1.4 Min: 0.42	Max: 8.4 Min: 6.6

Soil Map ID: 2

Soil Component Name: Water

Soil Surface Texture:
Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class:
Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

Soil Map ID: 3

Soil Component Name: XEROFLUVENTS

Soil Surface Texture:
Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Low

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	14 inches		Not reported	Not reported	Max: 141 Min: 42	Max: 7.3 Min: 6.6
2	14 inches	29 inches		Not reported	Not reported	Max: 141 Min: 42	Max: 7.3 Min: 6.6
3	29 inches	48 inches		Not reported	Not reported	Max: 141 Min: 42	Max: 7.3 Min: 6.6
4	48 inches	59 inches		Not reported	Not reported	Max: 141 Min: 42	Max: 7.3 Min: 6.6

Soil Map ID: 4

Soil Component Name: XEROCHREPTS

Soil Surface Texture:
Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	11 inches		Not reported	Not reported	Max: 14 Min: 4	Max: 7.8 Min: 6.1
2	11 inches	35 inches		Not reported	Not reported	Max: 14 Min: 4	Max: 7.8 Min: 6.1
3	35 inches	72 inches		Not reported	Not reported	Max: 14 Min: 4	Max: 7.8 Min: 6.1

Soil Map ID: 5

Soil Component Name: YOKAYO

Soil Surface Texture:

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	7 inches		Not reported	Not reported	Max: 4 Min: 1.4	Max: 7.3 Min: 6.1
2	7 inches	31 inches		Not reported	Not reported	Max: 4 Min: 1.4	Max: 7.3 Min: 6.1
3	31 inches	59 inches		Not reported	Not reported	Max: 4 Min: 1.4	Max: 7.3 Min: 6.1

Soil Map ID: 6

Soil Component Name: PINOLE

Soil Surface Texture: gravelly loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	9 inches	gravelly loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Clayey Gravel	Max: 4 Min: 1.4	Max: 7.3 Min: 5.6
2	9 inches	37 inches	clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Clayey Gravel	Max: 4 Min: 1.4	Max: 7.3 Min: 5.6
3	37 inches	61 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Clayey Gravel	Max: 4 Min: 1.4	Max: 7.3 Min: 5.6

Soil Map ID: 7

Soil Component Name: PINNOBIE

Soil Surface Texture:

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

Geothermal Wells Listing
Department of Conservation
Telephone: 916-445-9686
Geothermal well means a well constructed to extract or return water to the ground after it has been used for heating or cooling purposes. Geothermal wells in California (except for wells on federal leases which are administered by the Bureau of Land Management) are permitted, drilled, operated, and permanently sealed and closed (plugged and abandoned) under requirements and procedures administered by the Geothermal Section of the Department of Conservations Geologic Energy Management Division (CalGEM, formerly DOGGR).

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by EBA Engineering were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, LLC. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. This Report is provided on an "AS IS", "AS AVAILABLE" basis. **NO WARRANTY EXPRESS OR IMPLIED IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, LLC AND ITS SUBSIDIARIES, AFFILIATES AND THIRD PARTY SUPPLIERS DISCLAIM ALL WARRANTIES, OF ANY KIND OR NATURE, EXPRESS OR IMPLIED, ARISING OUT OF OR RELATED TO THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES REGARDING ACCURACY, QUALITY, CORRECTNESS, COMPLETENESS, COMPREHENSIVENESS, SUITABILITY, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, MISAPPROPRIATION, OR OTHERWISE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, LLC OR ITS SUBSIDIARIES, AFFILIATES OR THIRD PARTY SUPPLIERS BE LIABLE TO ANYONE FOR ANY DIRECT, INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR OTHER DAMAGES OF ANY TYPE OR KIND (INCLUDING BUT NOT LIMITED TO LOSS OF PROFITS, LOSS OF USE, OR LOSS OF DATA), ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT.** Any analyses, estimates, ratings, environmental risk levels, or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only an assessment performed by a qualified environmental professional can provide findings, opinions or conclusions regarding the environmental risk or conditions in, on or at any property.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

APPENDIX I

USER QUESTIONNAIRE

USER QUESTIONNAIRE

To qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments") the user must conduct the following inquiries required by 40 C.F.R. §§ 312.25, 312.28, 312.29, 312.30, and 312.31. These inquiries must also be conducted by EPA Brownfield Assessment and Characterization grantees. The user should provide the following information to the environmental professional. Failure to conduct these inquiries could result in a determination that "all appropriate inquiries" is not complete.

(1.) Environmental liens that are filed or recorded against the subject property (40 C.F.R. § 312.25).

Did a search of land title records or judicial records where appropriate identify any environmental liens filed or recorded against the subject property under federal, tribal, state, or local law?

The City does not have that information at this time.

(2.) Activity and use limitations that are in place on the subject property or that have been filed or recorded against the subject property.

Did a search of land title records or judicial records where appropriate identify any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the subject property and/or have been filed or recorded against the subject property under federal, tribal, state or local law?

The City does not have that information at this time.

(3.) Specialized knowledge or experience of the person seeking to qualify for the LLP (40 C.F.R. § 312.28).

Do you have any specialized knowledge or experience related to the subject property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the subject property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

The City does not have that information at this time.

(4.) Relationship of the purchase price to the fair market value of the subject property if it were not contaminated (40 C.F.R. § 312.29).

Does the purchase price being paid for this subject property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the subject property?

The City does not have that information at this time.

(5.) Commonly known or reasonably ascertainable information about the subject property (40 C.F.R. § 312.30).

Are you aware of commonly known or reasonably ascertainable information about the subject property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example,

a.) Do you know the past uses of the subject property?

The City does not have that information at this time.

(b.) Do you know of specific chemicals that are present or once were present at the subject property?

The City does not have that information at this time.

(c.) Do you know of spills or other chemical releases that have taken place at the subject property?

The City does not have that information at this time.

(d.) Do you know of any environmental cleanups that have taken place at the subject property?

The City does not have that information at this time.

(6.) The degree of obviousness of the presence or likely presence of contamination at the subject property, and the ability to detect the contamination by appropriate investigation (40 C.F.R. § 312.31).

Based on your knowledge and experience related to the subject property, are there any obvious indicators that point to the presence or likely presence of releases at the subject property?

The City does not have that information at this time.

Signed Myles Fisette Date 4/21/25

APPENDIX J

PROFESSIONAL QUALIFICATIONS

Kevin Coker, Senior Environmental Scientist Environmental Services

Qualifications	
Education	Sonoma State University, B.A., Environmental Studies & Planning/Hazardous Materials Management CEQA Practitioner Training Program, University of California, Davis
Registrations	California Registered Environmental Assessor OSHA 40 Hour Hazardous Waste Operations & Emergency Response Training Association of Environmental Professionals

Mr. Coker has over 25 years of experience in the field of environmental assessments and investigations, and various levels of property transfer and property development studies. Mr. Coker is experienced in many aspects of field investigations, including soil and groundwater investigations, *in-situ* remediation installation activities, underground storage tank (UST) removal and installation, over-excavation projects and other subsurface investigative and remedial projects, and regulatory permitting and compliance. Mr. Coker has performed over 300 Phase 1 Environmental Site Assessments (ESAs) in northern California, as well as CEQA- and NEPA-related environmental reviews. Mr. Coker is experienced in technical writing of Proposals/RFPs, work plans, summary reports and related technical documents.

At EBA Engineering, Mr. Coker is a Senior Environmental Scientist, responsible for a variety of projects including soil, groundwater and soil-vapor investigations, environmental assessments, property development and land-use permitting and associated studies, data evaluation and interpretation. Other responsibilities include the oversight of project budgets, client and regulatory agency interactions, site investigation activities and field and reporting programs.

Related Experience

- Phase I Environmental Site Assessments
- Phase II Environmental Site Investigations
- CEQA Initial Studies, Mitigated Negative Declarations/Negative Declarations
- NEPA Environmental Assessments
- Compliance monitoring including soil, groundwater, soil vapor and ambient air monitoring and sampling.
- Preparation of Work Plans for soil and groundwater investigations, hydrogeologic evaluations, corrective action plans, and closure documentation
- Oversee geologic and hydrogeologic investigations related to underground storage tanks and other chemical releases
- Field work, including environmental investigations requiring UST removal and over-excavations, soil and groundwater sampling and analysis, surface and storm water sampling and analysis

David Noren, Vice President
Environmental Services

Mr. Noren has over 30 years of experience in the field of environmental assessments and investigations. Prior experience includes technical and management services for a wide range of environmental, hydrogeologic, water rights assessment and reporting and solid waste landfill projects. The nature and scope of these projects have included field and management positions for property assessments, assessments of surface and subsurface geologic investigations, underground fuel storage tank investigations and remediation, hydrogeologic characterization investigations, remedial action design and implementation of soil, groundwater, and landfill gas corrective action programs and storm water management sampling and reporting.

At EBA Engineering, Mr. Noren is a Vice President of Environmental Services Division, and oversees a number of projects including site investigations and monitoring, environmental assessments, as well as providing technical support and management services for solid waste management projects. The management requirements include the oversight of project budgets, client interactions, site investigation activities and field and reporting programs.

Mr. Noren has experience in the application of numerous investigative and treatment methodologies in a wide range of geologic environments including performing the investigation and remediation of a diverse range of contaminated sites and municipal solid waste facilities.

Qualifications	
Education	University of San Francisco, San Francisco - M.S. Environmental Management University of California, Davis – B.S. Agricultural Science and Management
Registrations	California Registered Environmental Assessor OSHA 40 Hour Hazardous Waste Operations & Emergency Response Training OSHA 8 Hour Hazardous Waste Activities Management Training Supervisor Training in Hazardous Waste Operations
Affiliations	SRJC Ag Trust Foundation Sonoma County Farm Bureau Natural Resource Committee Santa Rosa Plain Groundwater Sustainability Agency Advisory Committee

Related Experience

- Perform Phase I Environmental Site Assessments
- Perform Phase II Environmental Site Investigations
- Perform compliance monitoring including groundwater, leachate, and landfill gas sampling and analysis.
- Landfill gas sampling at several active and closed waste facilities for compliance with Bay Area Air Quality Management District Rule 8, Regulation 34 and Title 27 of the California Code of Regulations. Data collected is for site regulatory compliance and modeling purposes.
- Preparation of Work Plans for soil and groundwater investigations, hydrogeologic evaluations, corrective action plans, and closure documentation
- Manage and oversee geologic and hydrogeologic investigations related to underground storage tanks
- Water rights assessment, registration and reporting
- Field work, including environmental investigations requiring exploratory drilling, vadose monitoring, groundwater monitoring well installation and sampling, soil and groundwater sampling and analysis, surface and storm water sampling and analysis
